

FLEETBOARD

Your all-in-one premium fleet management solution.

Intelligent, transparent, efficient – Fleetboard offers a broad selection of integrated telematics services and reports to boost your fleet's efficiency.

FLEETBOARD CORE

A simple entry to the telematics services. It consists of the features Mapping, Logbook, Track & Trace and Service. This gives you comprehensive insights into the trip history of your vehicles, allows you to locate your vehicles and plan routes. You also receive compact evaluations of relevant key figures and have access to brand-independent maintenance management.

FLEETBOARD CHARGE*

Fleetboard Charge connects your trucks and your charging infrastructure. This enables you to monitor and smartly control all processes, including the battery level, the charging status, the remaining charging time, the charging history and charging planning. eRange Prediction helps with route planning for your eTruck and simulates whether the range is sufficient, taking various parameters into account.

FLEETBOARD ANALYTICS**

Optimize driving styles with Performance Analysis to reduce fuel and energy consumption, wear and tear, as well as CO₂ emissions across your fleet. Clearly prepared reports provide the insights needed to train your drivers for more economical vehicle handling.

*Only for electrical vehicles

**Only for diesel vehicles
